

U. S. Wheat Exports Double Value in First Quarter 1921

Although Total Amount of Exports Declined, Some Commodities Gained Both in Volume and Worth

From The Tribune's Washington Bureau
WASHINGTON, May 30.—In an analysis of the foreign commerce statistics for the first three months of this year the foreign commerce department of the United States Chamber of Commerce points out that, although the total value of foreign trade for the first quarter of this year showed a marked decline compared with the same period in 1920, there were some important commodity lines that gained in value and volume.

The statement of the Chamber of Commerce says the gain in certain lines was reflected by increased exports to Germany, Netherlands, Spain, Mexico, Argentina, Chile, Uruguay, China, Philippines, India, Dutch East Indies, Japan, and Egypt. At the same time imports from Belgium, Denmark, Germany and Greece showed a gain.

Among important commodities exported the first quarter exceeding in volume and value the same period last year were wheat, coal and coke, iron and steel, tin and tin plates and taggers, tin, iron and steel, lubricating oil, and wheat. The second most valuable export commodity, in the first quarter more than doubled in both quantity and value, the amount exported last year being 1,000,000 bushels, valued at \$10 million; while this year it was 2,000,000 bushels, valued at \$20 million.

Leaf tobacco, the fifth most valuable export during the calendar year 1920, showed a slightly increasing demand on a rising market.

Coal and coke exports totaled 5.6 million tons, valued at \$45,000,000, as against 5,000,000 tons, valued at \$32,000,000, for the same period last year.

With the drop in the price of lead from 27 cents to 16 cents, the foreign demand nearly doubled, shipments totaling 25,000,000 pounds.

Similarly in import trade, certain commodities recorded an increase in both quantity and value for the first quarter of 1921. Among these were printing paper, wood pulp, crude petroleum, meats and meat products, and wheat.

Among the chief exports which showed a decrease in both quantity and value during the first quarter of 1921 were automobiles, wheat flour, copper ingots, plates and wire, bacon, unmanufactured cotton, cotton yarn, locomotive boards, and heavy machinery, iron and steel bars and rods, condensed, evaporated and powdered milk, hams and shoulders, leather boots and shoes, sugar, rice, and gunpowder.

Heavy machinery in volume and value were suffered by sugar, raw silk, crude rubber, unmanufactured tobacco, hides and skins, silk fabrics woven in the piece, huzlaps, copper pigs, ingots, etc., unmanufactured cotton, cotton cloths.
